February 13, 2013

---

An act to amend Sections 69433.2, 94910, and 94929.5 of the Education Code, relating to student financial aid.

LEGISLATIVE COUNSEL'S DIGEST

AB 330, as amended, Chau. Student financial aid: disclosures.

(1) Existing law establishes the Cal Grant Program under the administration of the Student Aid Commission, and establishes eligibility requirements for awards under the program for participating students attending qualifying institutions. As a condition for participation in the program, existing law requires each Cal Grant participating institution to annually report specified information to the commission, which the commission is required to provide on its Internet Web site in a searchable database.

This bill would include license examination passage rates, the institution's latest 3-year cohort default rate, the institution's percentage of undergraduate student borrowers, and certain other student loan debt information concerning ~~full-time~~, first-time degree- or certificate-seeking undergraduate students of the institution in the information that a participating institution is required to report and the commission is required to provide on its Internet Web site.

(2) Existing law, the California Private Postsecondary Education Act of 2009, which is repealed pursuant to its own provisions on January 1, 2015, provides, among other things, for student protections and regulatory oversight of private postsecondary schools in the state. The act is enforced by the Bureau for Private Postsecondary Education within the Department of Consumer Affairs. The act exempts specified institutions from all, or a portion of, its provisions. The act requires an institution to provide a prospective student prior to enrollment with a School Performance Fact Sheet, which is required to contain specified information relating to the educational program.

This bill would require the School Performance Fact Sheet to also include certain student loan debt information concerning ~~full-time~~, first-time degree- or certificate-seeking undergraduate students of the institution who have entered into student loans, as specified, while attending the institution.

These provisions concerning the School Performance Fact Sheet would become operative only if an act that becomes operative on or before January 1, 2015, delays or eliminates the January 1, 2015, repeal date of the California Private Postsecondary Education Act of 2009.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*
